SAFETY DATA SHEET

PHENOLPHTHALEIN INDICATOR SOLUTION

1. Product and Company Identification

Material name: PHENOLPHTHALEIN INDICATOR SOLUTION
Version #: 2.0
Revision date: Jan-05-2016
Supersedes date: Jan-23-2013
Prepared by: This SDS has been prepared by GE Water & Process Technologies Regulatory Department (1-215-355-3300).

CAS #: Mixture
L code: L212
Product application: Field test reagent.

Company/undertaking identification
GE Water & Process Technologies Canada
3239 Dundas Street West
Oakville, Ontario, L6M 4B2
T 905-465-3030
(800) 877-1940

2. Hazards Identification

Emergency overview: May cause slight irritation to the skin. May cause dermatitis. May cause moderate irritation to the eyes. Vapors, gases, mists or aerosols may cause irritation to the upper respiratory tract. Prolonged exposure may cause dizziness and headache.

Potential health effects

- **Eyes**: May cause moderate irritation to the eyes.
- **Skin**: Primary route of exposure May cause slight irritation to the skin. May cause dermatitis.
- **Inhalation**: Primary route of exposure Vapors, gases, mists or aerosols may cause irritation to the upper respiratory tract. Prolonged exposure may cause dizziness and headache.
- **Ingestion**: May cause gastrointestinal irritation with possible nausea, vomiting, headache, dizziness, unconsciousness, and injury to the kidneys and liver.

Target organs: Prolonged or repeated exposures may cause CNS depression and/or defatting-type dermatitis. Prolonged or repeated exposure may cause toxicity to the kidney and/or nervous system.

Signs and symptoms: Excessive dermal exposure causes defatting or drying of skin. Excessive inhalation of vapors causes dizziness, headache and nausea.

Medical conditions aggravated by exposure: None known.

3. Composition / Information on Ingredients

<table>
<thead>

</tr>
</tbody>
</table>
Composition comments: Information for specific product ingredients as required by the WHMIS Regulations is listed. Refer to additional sections of this MSDS for our assessment of the potential hazards of this formulation.

4. First Aid Measures

First aid procedures

**Inhalation**
Move to fresh air. If breathing stops, provide artificial respiration. For breathing difficulties, oxygen may be necessary. Get medical attention immediately.

**Skin contact**
Wash off with soap and water. Take off contaminated clothing and wash before reuse. Get medical attention if irritation develops and persists.

**Eye contact**
Immediately flush eyes with plenty of low-pressure water for at least 30 minutes while removing contact lenses. Keep eyelids apart. Get medical attention immediately.

**Ingestion**
If swallowed, rinse mouth with water (only if the person is conscious). Never give anything by mouth to a victim who is unconscious or is having convulsions. Do not induce vomiting. Call a physician immediately. Dilute contents of stomach using 2-8 fluid ounces (60-240ml) of milk or water.

Notes to physician: No specific antidotes are recommended.

5. Fire Fighting Measures

**Extinguishing media**

**Suitable extinguishing media**
dry chemical, carbon dioxide or foam. Water spray should be used only to cool fire-exposed containers and disperse vapours.

**Unsuitable extinguishing media**
Not available.

**Protection of firefighters**
Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.

**Fire fighting equipment/instructions**
In case of fire and/or explosion do not breathe fumes. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Cool containers / tanks with water spray. Fire fighters should wear positive pressure self-contained breathing apparatus (full face-piece type).

**Explosion data**

**Sensitivity to static discharge**
Not available.

**Sensitivity to mechanical impact**
Not available.

6. Accidental Release Measures

**Personal precautions**
Wear appropriate protective equipment and clothing during clean-up. Avoid contact with spilled material. See Section 8 of the MSDS for Personal Protective Equipment.

**Environmental precautions**
Avoid discharge into drains, water courses or onto the ground. Water contaminated with this product may be sent to a sanitary sewer treatment facility, or a permitted waste treatment facility, in accordance with any local agreements.

**Methods for cleaning up**
Ventilate area, use specified protective equipment. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Remove sources of ignition. Flush with plenty of water. Spread sand/grit.

7. Handling and Storage

**Handling**
Flammable. Store in explosive proof area where electrical equipment meets NFPA code.

**Storage**
Store containers closed when not in use. Keep away from heat, sparks and open flame. Earth containers during filling or discharge when performed at temperatures at or above product flash point.

8. Exposure Controls / Personal Protection

**Occupational exposure limits**

Biological limit values

No biological exposure limits noted for the ingredient(s).

Engineering controls

Adequate ventilation to maintain air contaminants below exposure limits.

Personal protective equipment

Eye/face protection

Chemical goggles are recommended. Splash proof chemical goggles.

Skin protection

Wear suitable protective clothing. Chemical resistant gloves. The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other. Chemical resistant apron. Glove selection must take into account any solvents and other hazards present. Neoprene gloves. Wash off after each use. Replace as necessary.

Respiratory protection

If air-purifying respirator use is appropriate, use a respirator with organic vapor cartridges.

9. Physical & Chemical Properties

Appearance

- **Physical state**: Liquid
- **Color**: Colorless
- **Odor**: Alcohol
- **pH (concentrated product)**: 5.6
- **Vapor density**: 4.6 (Air = 1)
- **Boiling point**: 399 °F (204 °C)
- **Melting point/Freezing point**: Not available.
- **Solubility (water)**: Not available.
- **Specific gravity (70°F, 21°C)**: 0.93
- **Flash point**: 253 °F (123 °C) OPEN CUP
- **Flammability limits in air, upper, % by volume**: Not available.
- **Flammability limits in air, lower, % by volume**: Not available.
- **Evaporation rate**: < 1 (Ether = 1)
- **Viscosity temperature**: 70 °F (21 °C)

10. Chemical Stability & Reactivity Information

Reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability

Material is stable under normal conditions.

Conditions to avoid

Not available.

Incompatible materials

Friction, heat or other sources of ignition may cause a violent reaction releasing heat and toxic fumes. Contact with oxidizers may cause fire or explosion.
Oxides of carbon evolved in fire.

Hazardous decomposition products

Possibility of hazardous reactions
Hazardous polymerization does not occur.

11. Toxicological Information

</table>

13. Disposal Considerations

Disposal instructions
Dispose of contents/container in accordance with local/regional/national/international regulations.

Waste from residues / unused products
Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner.

Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport Information

<td>Toxic Substances Control Act (TSCA) Inventory</td>
<td>Yes</td>
</tr>
</tbody>
</table>

* "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s).

A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

16. Other Information

List of abbreviations

- CAS: Chemical Abstract Service Registration Number
- TSRN: Trade Secret Registry Number
- ACGIH: American Conference of Governmental Industrial Hygienists
- TWA: Time Weighted Average
- STEL: Short Term Exposure Limit
- LD50: Lethal Dose, 50%
- LC50: Lethal Concentration, 50%
- NOEL: No Observed Effect Level
- COD: Chemical Oxygen Demand
- BOD: Biochemical Oxygen Demand
- TOC: Total Organic Carbon
- IATA: International Air Transport Association
- IMDG: International Maritime Dangerous Goods Code

HMIS® ratings

- Health: 1
- Flammability: 3
- Physical hazard: 0
- Personal protection: B

NFPA ratings

- Health: 2
- Flammability: 3
- Instability: 0

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

This data sheet contains changes from the previous version in section(s): Product and Company Identification: Physical States

- Physical & Chemical Properties: Multiple Properties
- Toxicological Information: Toxicological Data
- HazReg Data: North America
- GHS: Classification
